PROFILE

I am focused and have a unique perspective with a passion for creativity, fixing bugs, problem solving and I love discussing new concepts and ideas. I am a fun, friendly and patient person who can keep cool in stressful situations and is able to relate and communicate well with clients and coworkers alike.

EDUCATION

Alchemy Code Lab

Sept 2020 - Mar 2021

SIU Carbondale

Aug 2000 - May 2005

FEATURED PROJECTS

Aurora Synth

aurora-synth.netlify.app || github.com/jumpybuns/aurora

JavaScript | Web Audio API | ChartJS | CSS

Beautiful interactive web browser synth built with vanilla JavaScript and Web Audio API. I implemented the series of audio nodes and created the different wave shapes and filters as well as used ChartJS to create the dynamic graph

Karaoke Roulette

karaoke-roulette.netlify.app || github.com/Karaoke-Roulette

React | JSONWebToken | Express | Heroku | Superagent | CSS

Social app utilizing YouTube API to create randomized karaoke videos. We used Javascript, React, SQL, Heroku, Netlify, CSS I created the API call, implemented the authorization, ran tests, and created the CRUD routes.

Chatable

adoring-wright-oeba98.netlify.app || github.com/Chatable-2021

Socket.IO | Material UI | PostgreSQL | BCrypt | CookieParser | Express | Nodemon

Instantaneous live chat app and chat rooms created with Socket.IO and Material-UI. I designed and created the messaging emits and broadcasts. I also wrote the User and Auth models/routes.

WORK EXPERIENCE

Audio Engineer

2005 - 2020

Corporate Clients

- Nike
- More Than Light
- Meyer Pro
- Seamless
- SmartTech

Music Clients

- SYML World Tour
- Typhoon World Tour
- Mississippi Studios
- Pickathon LLC
- Revolution Hall
